BOOKKEEPING SOLUTIONS

Jennifer Henderson, CEO and founder of Jengar Bookkeeping Solutions

Jennifer Henderson is a wife, a loving and caring person, passionate to help business owners WIN and SUCCEED. I am a dedicated and devoted Christian who is purpose-driven and live by the mantra " I can do ALL things through Christ who strengthens me"

Jengar Bookkeeping Solutions is a client-oriented and result-driven company. We help service-based Entrepreneurs to eliminate financial stress and confusion, by implementing our 9 step elevation blueprint™ which reduces tax liability, improves profitability, and increases their understanding of business finances, so they can make better financial decisions.

The company is located in Brooklyn New York, however we operate remotely and serve clients across the USA. We cater to small to medium sized service based companies who want to be confident about their business finances and desire to position themselves for financial opportunities.

The Company has been in operation since July 2019

The driving factors behind the business idea are mainly:

- My PASSION and LOVE for NUMBERS and desire to see business WIN and using the numbers to tell the story of the company.
- To educate companies about the importance of having an effective accounting process and system in place. Many small businesses fail due to the lack of knowledge of the financial status of the business finances and making decision without accurate financial information.
- The combination of my wealth of knowledge as an accounting professional with over 25 years of experience and the understanding of the financial challenges companies face.
